

THE ORIGINAL

Rubaroc was first founded in 1983 by Barry Meakings Sr. His tenacious commitment to developing a safety base product has evolved the Rubaroc formula into the high-quality safety surface that it is today.

Rubaroc installations are installed fast and without the use of loud, bothersome machinery. The surface can be walked on within 24 to 48 hours, ensuring minimal inconvenience.

Rubaroc is unlike any other surface. It is long-lasting, easy to maintain, and you can expect an efficient and professional installation.

Rubaroc proves *safety* can be beautiful!

WHAT MAKES US UNIQUE?

With endless colour combinations the design capabilities of Rubaroc surfacing are limited only by your *imagination!*

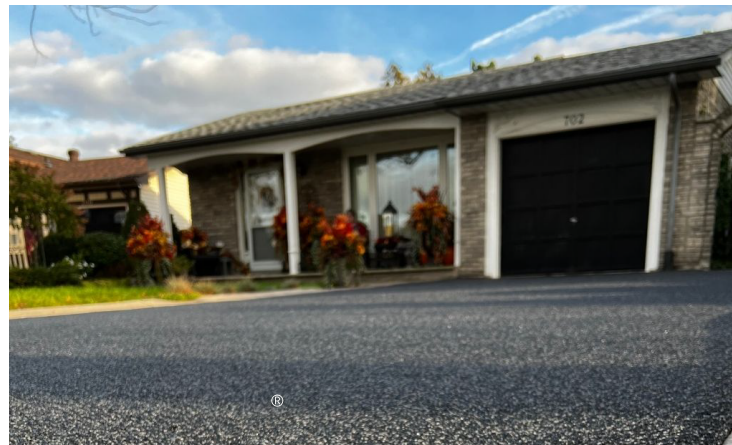

TRANSFORM YOUR SPACE

We create beautiful surfaces for pool decks, driveways, garages, patios, and porches, while retaining all the safety properties Rubber Safety Surfacing has to offer. Style, comfort and safety - Rubaroc has it all.

With over 35 years of global installation experience, Rubaroc has proven it's quality and durability perpetually.

Rubaroc surfaces are created using polyurethane binders and high-quality coloured rubber granules. This simple process had been innovated over the years to create the most resilient, non-skid surface that is virtually indestructible.

THE FACTS

Rubaroc is slip resistant when wet, much like your bath mat which makes rubber safety surfacing perfect for wet deck applications.

Rubaroc is anti-fungal, anti-bacterial and UV resistant.

Our surfaces will not crack under extreme temperatures and accommodates to ground movement.

It can be installed over new or old concrete, asphalt, interlocking brick and more.

BOUNCES LIKE RUBBER, WEARS LIKE ROCK.
